Pure Water and two other water agencies have three projects running on Morena Boulevard. Their project managers and engineers want to hear from residents and businesses before the work starts in October.

THEY WANT TO KNOW

Would you rather the work happened at night or during the day?

Night work finishes the project sooner. Day work keeps the noise out of the night, but street closures stretch the timeline out.

Open to everyone who lives or works in Linda Vista. No membership needed to attend or to speak.
