Linda Vista Town Council General Meeting

6/19/2024

Call to Order @6:30 PM by Becky Hunt, President of the Linda Vista Town Council. She introduced the venue for the evening to be a Town Hall Meeting with San Diego District 7 Council Member, Raul Campillo

I. Council member Campillo introduced himself and his staff and stated that the budget for 2025 will have a $17 million dollar deficit. What this means to the residents of the city is that there will be no raises for the city workers. Some will leave and it will be hard to get their knowledge and expertise back.

II. Things that have been accomplished are:

Re-paving Roads – The city has spent 140 million dollars to re-pave 250 miles of roads.

There are fifteen intersections that have had the most problems, and the city is trying to find solutions to those problems.

Homelessness has been a continuing problem. Safe parking lots have been a key to getting services to people who need them and keeping people safe.

The unsafe camping Ordinance has moved people in the river valley in Mission Valley and Rose Creek to safe camping areas with a tent provided. This was a $3 million project. Jewish Family Services on Balboa has helped many people.

Wi-Fi for the homeless is needed to find a job.

After school programs at the Recreation Centers for children have been established.

2.3 million small business enhancements have been made to help people learn and how to apply for Grants and other supports.

Linda Vista had celebrated Howard Wayne Day by designating a street in his honor. He was in public service in this community and lived in this community for years.

Janet Kaye was celebrated at the Linda Vista Multi-Cultural Fair for her many years of public service with this event.

The Community Garden celebrated its Grand Opening after years of planning as the first public garden in a City Park and Recreation Center in San Diego.

III. Things We Keep Trying to do:

Expand the library

Build a Community/Senior Center estimated to cost $35 million

IV. Community Concerns

USD fixed the Linda Vista sign, but now get rid of the weeds.

Cycle through the city every couple of years to clear the weeds for fir safety but not enough staff. Give the request to Miles and it will get more attention.

Exploding power lines in Mission Heights. It's happened twice. Give the information to Miles and it will get more attention.

Building notices that the community is not getting. This is more discretionary than required. Not all builders do this. Try to get the dialogue going.

There is a State Grant for entrepreneurs for rehabilitating people convicted of Marijuana possession. This has no city funds.

Last October a law was passed that if you dig up a utility on the road, that you repair it. You may deduct the cost of the repair from the access fee the city charges you to get to the utility line.

One resident got a ticket for an on the street window repair because his car was parked not facing the flow of traffic so that the technician could access the window. The time to finish the repair and get the ticket was 10 minutes. Minutes after the finish of the repair the resident reparked the car in the required manner.

How about a big, nice grocery store?

What would it take to have an expansion of the community park to be a friendly space for the elderly and then a childcare space for the children?

Discretionary projects give notice of the projects to the Linda Vista Planning Group. Chairs used to get notified. Chairs and Planners need to connect.

The suggestion was made to have the Park have instruments that the children can play with i.e., xylophones, drums like in Navy Housing.

Get Baca Park going. July 1st is the new fiscal year, and the money should be there for this project.

IV. Announcements

Kim Hanson from Bayside announced that there is a seed starting class at noon with cucumbers and other seeds. There are still beds available. Apply on-line. Requirements are: Get on the e-mail list, Do a garden Activity, Live in Linda Vista, and the cost is $144/yr. for water. Flyers on the back table.

Meeting adjourned at 7:32PM by Becky Hunt.

Respectfully submitted by Christine Weinstein, Secretary, LVTC
